Chairman and CEO

Dear Customer,

Greetings and best wishes!!!

First of all, I would like to thank you for the patronage and continuous support you have been extending to us all these years. We warmly welcome you to our exclusive club of high quality framers and distributors. With your support and the sincere hard work of our employees working across India, we have become the most progressive and reliable brand in Indian framing industry. We strive to provide you with good quality products at the lowest possible prices with a wide range keeping in view your requirements. To give you the support you need we have now come up with our own stock points in Vijayawada, Mumbai, Chennai, Bangalore and Pune. Our material is also available ready with numerous dealers and distributors across the country. We have introduced range of lamination products and machines that will complement the framing business and create value for our customers.

We also increased our product range for the back of the frame hardware such as hinges, hangers, Self fastening hangers and other such hardware items which are essential for smooth running of your business. We have also introduced high quality mounts board with varying colors, sizes and thicknesses. I firmly believe that these products will compliment and strengthen our existing range of products. You would have noticed that we have merged our galaxy range of products into this catalog for the convenience of our customers. We have introduced some designs with genuine exclusive Korean foils for our gallery customers.

As part of our product development, we constantly introduce new products as per industry requirements which will be informed to you by our sales persons, dealers and distributors. We will also inform you of the same with our supplementary catalogs.

We value your relationship with high regard and highly appreciate your business. Please be rest assured that we will give you constant supply of all the items in the catalog as and when you order.

Our tag line "**Best Quality ... Lowest Prices**" is just not our Moto, It is our commitment towards our customers.

Thanks once again,

Yours faithfully,

Velagapudi Sambasiva Rao
Chairman and CEO,

VELAGAPUDI GROUP OF COMPANIES

CUTTING MACHINE - C1

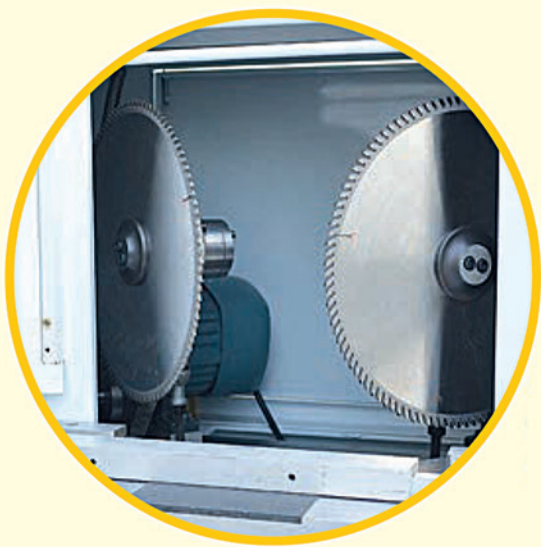

- » Clean and smooth cutting action.
- » Adjustable blade block movement.
- » Sliding stop and measuring scale ensuring accurate repeat work.
- » Directional off-cut slide for tidy waste collection.
- » Adjustable fences (45° - 90°)
- » Cuts double mitre at 45 and single mitre up to 90.
- » Adjustable support holders.
- » Easily cuts P.S. Mouldings and wooden mouldings.
- » Weight:110Kgs.
- » Measurement scale in inches.

TABLE CUTTING MACHINE - C4

- » Designed for High and Fast Production.
- » Long Durable Blade.
- » Big Circular Saw.
- » Power saver Motor.
- » High Speed Automatic Cutting Stroke for Plastic and Wooden Mouldings.

Available Table Sizes: 27.5" x 27.5", 31.5" x 31.5"

PNEUMATIC DOUBLE SAW CUTTING MACHINE-C3

- » Designed for High and Fast Production.
- » Long Durable Blades.
- » Big Circular Dual Saw.
- » High Speed Powerfull Motors.

UNDERPINNER MACHINE - P1

- » This machine is foot-pedal assembling / pinning machine
- » It does not required electricity or an air source.
- » It is well suited for small frames or areas where noise is a major concerns
- » V-Nail Type:7mm, 10mm, 12mm, 15mm.

PNEUMATIC UNDERPINNER - P4

- » Perfect for fast production and excellent performance.
- » V-Nail Type:7mm, 10mm, 12mm, 15mm.

PNEUMATIC UNDERPINNER AUTO KNOB - P4A

- » Air operated Underpinner
- » Perfect for fast production and excellent performance.
- » No change of parts required when changing the size of V-Nails.Just turn the knob and the dye is changed.
- » V-Nail Type:7mm, 10mm, 12mm, 15mm.

TORO™ V-Nails with
Auto Twist Lock™
technology

TORO™ brand European quality V-Nails now available in India.

The special V-Nails are designed for use in all imported machines requiring AL Type V-Nails. The size of V-Nails is 10.8 mm; fits and runs perfectly in European & Chinese made machines. The V-Nails are pre-stressed using proprietary *Auto Twist Lock™* technology which allows the V-Nails to give you a perfect tight locking of mouldings. The V-Nails are made using superior quality metal with consistent quality which allows smooth flow in the joining machine ensuring durability and trouble free operation of your joining machine.

Best suited for all manual and pneumatic joining machines.
